- Ranexa (February 2019)

Treximet
sumatriptan / naproxen sodium

Industry News

Drug Shortages: Have been recorded for over 15 years. However recent shortages of common drugs like atenolol and nature -throid should be cause for concern. Reasons for the scarcity of these drugs may be due to

- Manufacturing difficulties
- Raw material shortages
- Recalls
- Business stresses
- Natural disasters : Hurricane Maria devastated the lives of the people on the Island of Puerto Rico. With about 94% of the island [including approximately 50 Pharmaceutical Companies] still without electricity, drugs cannot be produced and employees cannot safely navigate through the treacherous roads to get to work.
